

1981 CESSNA 414A
N2702L | MSN: 414A-0608

OVERVIEW

A classic, clean example of the widely respected Cessna 414A. With recently overhauled props and engines, this aircraft has a lot of fun and adventure ahead of it.

Seating for six, including an aft potty, and a panel with nice upgrades makes this a great way to get from where you are to where you want to be!

BACKGROUND

The Cessna 414A is beloved for its practical utility. A Goldilocks aircraft, the 414A offers nice upgrades over the Cessna 401, without the added expense and complexity of the Cessna 421.

Thanks to RAM Series IV upgrades, the 414A punches above its weight. Performance increases yields a maximum range of 990 nm and a cruise speed of 215 kts.

Featuring a pressurized cabin and seating for six, the engineers at Cessna outdid themselves with clever use of storage. Passenger baggage can be loaded in the aft cabin, wing & nose storage compartments.

A reliable workhorse for families, businesses, and regional airlines, the Cessna 414A has earned its reputation as affordable, reliable, & comfortable transportation.
