OVERVIEW

The Cessna Citation is a globally recognized business jet. With straightforward engineering and avionics, the Citation is popular with owners, pilots, and maintainers for its ease of operation.

The S/II 550 Citation, also known as the Super II offers impressive performance. With a nearly 2,000 nm range, it operates with a service ceiling of 43,000 ft. You'll get to your destination faster with a 410kts true airspeed.

With seating for 7, an aft lavatory, and folding tables, your passengers will enjoy their trip. The S/II can store lots of baggage in the aft baggage compartment.

This Citation has no major damage history and an updated avionics suite.

When you're ready to move up to a light business jet, the Cessna Citation S/II 550 is an excellent choice.
