Glove Box

PTT on co-pilots panel

3rd window kit

74 gallons fuel

Precise Flight Speed Brakes

Updated wing tips

Strobes

Pitot heat

No step (removed)

Interior:

This is an example of a Hanger kept aircraft restored decades ago in 8/83. Side panels are in deep blue vinyl. The seats are in mostly blue multi-colored tweed fabrics pilot and co have covers! Carpet is all Carlsbad blue in really "tight" condition! Rated 6. +

Exterior:

Very respectful condition (some missing areas and thin) was also redon in 83! Shows well from a few feet and is not in need of anything major. Matterhorn white and two-tone blue! Rated 6.

COMMENTS:

Very sharp machine and no surprises, all logs, no major damage, no hail pecks. The skins are tight and flat! Aircraft has a good appearance and good base to make your machine.
