A/C N# 8538P S/N 26-119
Description of work performed. Airframe

Performed annual inspection per Piper PA24-400 inspection checklist. Installed missing screw (P/N AN526-10R8) on cowling right air inlet. Installed new cabin fire extinguisher (P/N C352TS) and bracket. Found and fixed 8 instruments by resoldering the wire connections and bending the inside tabs to make good connections. Serviced brake fluid reservoir with MIL-H-5606. Adjusted aileron cable tension to within limits. Adjusted stabilator cable tension to within limits. Treated aileron cables with LPS3 corrosion inhibitor. Fabricated and installed 2 cable phenolic separators and 1 phenolic pass through on the right side aileron cables. Treated the right wing outboard top skin surface corrosion, inside of wing, with LPS 3 and wiped down. Cleaned and treated surface corrosion on flap tracks. Cleaned and treated corrosion on left fuel tank sender. Serviced nose strut to proper extension. Installed new grommet (P/N MS35489-17) on right fuel vent. Resealed brake calipers with new orings (P/N MS28775-222) and bled brakes. Found loose connection to power in on ammeter, retightened connection. Ins
