AIRCRAFT OVERVIEW

N425TB is a well-equipped Cessna 425 Conquest I, the pressurized twin-turboprop that pairs PT6A reliability with genuine cabin-class comfort and efficient operating economics. The panel has been brought fully current with a Garmin G600TXi, dual GTN Xi navigators and a GFC 600 digital autopilot, with ADS-B and WAAS installed. The cabin was refreshed with new leather seating and carpet in December 2022 and a new headliner in April 2025, and the McCauley four-blade propellers were overhauled in 2024. Phase 2 inspection was completed June 2026. Complete logs, based in Tyler, Texas.
